REAR-END COLLISION

Electric Train From This City Strikes Falls Church Car at Alexander Island This Morning.

The electric train which left this city for Washington at 7:55 o'clock this morning half an hour later, struck a Falls Church car at Alexander Island station, near the south end of the Highway Bridge. The front of the motor car of the Alexandria train was considerably damaged, as was also the rear end of the Falls Church car.

Four persons are reported to have been more or less injured. They are:

Abe L. Cohen, of Alexandria, head injured and other parts of body bruised.

Harry Moore, of Alexandria, arm injured.

Miss Kidwell, of Del Ray, bodily injuries.

Mrs. M. Weber, of Ballston, said to be slightly injured.

The train from this city was in charge of Conductor Beach, and Motorman Burns. Both escaped injury.

The cause of the accident is difficult to ascertain, although it is supposed that the motorman of the train from this city made a miscalculation. He may have supposed that the Falls Church car would not stop at Alexander Island; hence he kept his train going at the speed generally maintained on that part of the road. The Falls Church car, however, had made a stop, and was moving slowly from Alexander Island when the train in its rear overtook and collided with it.

ALLEGED GERMAN INTRIGUES.

Department of Justice Will Exercise Close Surveillance in Future.

Washington, July 5.—That German intrigues against property and stations of the United States Navy in this country must still be carefully guarded against is shown by a case which is now before the Department of Justice, says a statement issued here today at Navy League headquarters.

In a southern city with a population of about 30,000 people, says this statement, there is a colony of German subjects who recently petitioned the Government, through the Department of Justice, to waive certain of the restrictions placed upon them as their residence in fixed zones.

The petition from the Germans of the southern city mentioned above, was so phrased on its face that it apeared to be an entirely harmless request. Federal officials in the South were inclined to grant it. The petition was, however, referred to Washington. An investigation proved that there was on foot a scheme to place certain German agents close to the Navy Yard where considerable mischief might then be done. It has now been decided that not only will the areas from which these Germans are barred not be limted or reduced, but that increased surveillance over every movement will be maintained.

The belief is expressed here that had this request been granted, it was the intention of alien enemies in other cites to make a similar request, and that in the end serious harm might have resulted.

U. S. FLAG OVER PARLIAMENT

By Order of King Stars and Stripes Wave Over Victoria Tower.

London, July 5.—By order of the King the Stars and Stripes were flying from the Victoria tower of the House of Parliament yesterday and also on the other Government buildings, beside the Union Jack. Private buildings were bedecked with American flags as never before. Thousands of persons in the streets wore small flags and wagons and automobiles were decorated with the American emblem. Premier Lloyd George was interested actively in arrangements for celebration of the Fourth. The Welsh Guards' Band played American airs while changing guard at St. James Palace, as did the orchestras in all the theatres.

HEADLESS BODY FOUND

Body of Unknown White Man Found Under Scow Which Was Being Pulled Out of Water This Morning.

About eleven o'clock this morning while a scow was being drawn from the water at the shipyard at the foot of Franklin street, the headless body of an unknown white man was seen floating in its wake.

The scow had arrived at the shipyard from Washington about two weeks ago, and it is supposed that the body had been drawn under the scow and kept in position until the boat had been pulled from the water.

The police station was immediately notified and Sergeant Roberts having notified Dr. T. M. Jones the coroner, the sergeant and the doctor repaired to the shipyard. Upon examination it was found that the body was headless and the the left foot had been crushed. The man appeared to be about 40 years of age, and was 5 feet 11 inches in height. The body was clothed with thin pantaloons and a thin shirt

Undertaker Demaine subsequently was notified, but in the meantime the police boat Vigilant arrived from Washington and the remains were placed aboard and taken to the capital city where attempts will be made to identify it.

BREAKS STRIKE BLOCKADE

Governor Takes Food to Arizona Mine While Troops Hold Off Pickets.

Globe, Ariz., July 5.—Three hundred armed men with fixed bayonets drove back 600 strikers, copper mine pickets, yesterday, while Governor Thomas Campbell and Superior Court Judge Walter Shutz drove a truckload of provisions across the picket line into the camps of the Old Dominion Mining Company. Another truck on which rode Major C. M. Bendall, United States army, attempted to follow, but the miners swarmed around it and would not permit it to pass The crowd of strikers then dispersed.

When Governor Campbell told the crowd of pickets that "the citizens are determined to send truckloads of provisions to the men inside the mine," he was first met with shouts of "it can't be done."

The metal mine workers' branch of the Industrial Workers notified Gov. Campbell at a conference yesterday that they would not return to work until all their demands are met.

General Manager P. G. Beckett, of the Old Dominion company refused to join the conference and asserted that he will not enter into any future conference with the strikers until he is guaranteed ample protection for the men who have remained at work.

"From what I saw and what Industrial Workers informed me, it may even require intervention by the government before peace and harmony is restored," said Gov. Campbell.

EFFECTS OF PARDONS

Czech Leader Declares Austrian Amnesty Will Not Clear Politics

Amsterdam, July 5.—A Vienna dispatch says that when the Austrian premier, Dr. Von Saydler, read in the house of deputies the proclamation of Emperor Charles, granting amnesty to civilians convicted of high treason, lese majeste and offenses against public peace, the German radicals protested vigorously. The proclamation was applauded loudly by the other parties.

London, July 5.—The proclamation of Emperor Charles of Austria, granting amnesty to civilians convicted of high treason and other offenses, would never have been promulgated except for the success of the new Russian offensive, in the opinion of Doctor Benes, secretary of the Czech committee, as set forth in an interview obtained by the Central News. Doctor Benes, who has just arrived in London, is quoted as saying:

"The condition of affairs in Austria is very serious. The emperor thinks that by granting amnesty he will clear the political atmosphere, which is becoming rapidly antagonistic to the government, but I am assured that in stead of having a favorable effect on the further course of parliamentary session, as is the hope of the government, the result will be the reverse.

"The emperor's step will not remove the blot. We know why the emperor acted as he did. He wishes to win all parties to his side ostensibly to participate in the defense against the Russians, but the Czechs understand the underlying motives and will not be trapped."

BATTLE WITH U-BOATS

One German Submarine Sunk and Others Driven Off by American Vessels Convoying Troops.

Official announcement was made at the Navy Department late Tuesday afternoon of the safe arrival at a French port of the final contingent of Pershing's troops.

In making public the news of the safe arrival of the entire force, Secretary Daniels disclosed the perils through which the men had passed.

Twice they were attacked by an entire fleet of submarines, which had lain in wait for them, bent upon a slaughter. In each instance the submarines were driven off by American patrol boats convoying the transports. At least one submarine was sunk, and probably more.

Two days after German submarines made their attacks on the transports carrying the American expeditionary forces to France, an attack was made by U-boats on a big navy transport carrying gold to pay the American troops and a large cargo of provisions.

The transport escaped with the aid of American destroyers.

These facts became known in cable dispatches received here last night.

The conflict occurred near the French coast. In the fight were the transport, two American torpedo destroyers and two German submarines. The warships held off the submersibles, forcing them into a position from which their fire was without effect.

The transport headed for shore, going dangerously close to shallow water, but the strategy employed enabled it to be less free from attack by the U-Boats

According to the report, the transport, convoyed by two destroyers, was sailing northeast along the French coast.

Judge James E. Fulton, city attorney of Oneida, Scott county, Tenn., who was shot by J. E. Bell, editor of the Oneida News, last week, died Monday. The shooting was the result of a neditorial criticism and alleged threats by Fulton to settle the matter with pistols. Bell is said to have met the judge in a lawyer's office and fired upon him. Fulton served 10 months of a 10-year sentence in State prison for the murder of Sam Parker in 1906.

REGISTRATION OF WOMEN.

Plans Outlined to Begin Work on Saturday of This Week—Will Open Booth Near City Market.

Plans for the registration of all women in this city over sixteen years of age have been mapped out by the general committee which will have charge of the work of the local registration headed by Mrs. Kate Waller Barrett. Following a meeting held in the Sunday School room of St. Paul's Church Tuesday afternoon it was decided to open a registration booth at the southeast corner of Cameron and Royal streets, in front of the marble tablet on the market building erected by the local circle of Colonial Dames three years ago.

Beginning Saturday, July 7, a committee of ladies will be in charge of the work of registration at this booth and it is hoped that all women over sixteen in this city will avail themselves of the opportunity to register, and so facilitate the work of Food Director Herbert Hoover in the conservation of food. It is on the issue of food conservation that steps have been taken for the registering of housewives and others under Mr. Hoover's plan.

Several attractive features are expected in connection with the campaign for the registering of women in Alexandria.

The ladies in charge of the booth Saturday will be attired in a uniform of blue chambray with white pique trimmings and will wear a miniature sheaf of wheat on the hat. While steps towards the canvassing of residences have not been taken, it is likely that this will be done before the registration campaign closes and in this case the same uniforms will be worn by the ladies in charge of the canvassing.

While the registration of women for women for war service will not be compulsory like the registration of the men on June 5, it is nevertheless expected that large numbers will do the "patriotic bit" possible for women of the nation.

TO MUSTER IN COMPANY

Alexandria Light Infantry Will Be Drafted into Federal Service July 15—Recruiting Progresses.

Definite announcement has been made that the Alexandria Light Infantry of this city, whose official designation is Company G, First Virginia Infantry, will be mustered into federal service on July 15 by army officers who will be detailed for the work of drafting the Virginia militia into the government service. After the mustering in has taken place, the Light Infantry will be quartered in the Armory for about ten days and about July 25 it is expected they will be ordered to one of the National Guard cantonments.

To date the total strength of the company is 115 men, all of whom have qualified, including the physical examination which is that of the regular army. This leaves a total of thirty-five men that will have to be secured before the company reaches its full war strength of 150 men. Two new recruits have been received as applicants, Harry A. Leake and Forest S. Henning, since the last issue of the Gazette. It is expected that the next few days will bring a swell in recruiting, now that definite orders have been received.

Captain Conrad Johnson, in command of Company G, announces that beginning next Monday, July 9, two drills will be held each week instead of the one drill per week as has been in force heretofore. Drills will be held from that date until the departure of the company for training quarters on Monday and Wednesday nights of each week, at the usual hour.

FOURTH AT OCCOQUAN

Many Alexandrians Participate in the Events Held There Yesterday.

Among the places of interest visited by residents of this city yesterday was Occoquan where a special program had been arranged for the benefit of the Red Cross, under the direction of Superintendent W. H. Whittaker.

An address by Miss Mabel Boardman of Washington was delivered in the afternoon, and refreshments booths, motion pictures and a benefit luncheon and supper, all for the good of the cause, were included in the program for the day. The Indian Guard band provided plenty of music during the day and evening and most of these from this city did not return home until the late evening train. George L. Sehon, superintendent of the Kentucky Children's Home, where some seven thousand children are cared for, also made a brief address on the work of the Red Cross.

VIRGINIA NEWS

It is stated in Richmond that the Federal Government has asked for an investigation of the withdrawal of Boy Scouts from the Virginia potato fields. Charles L. Weaves, scout executive of Richmond, has issued a statement in which he lays the entire blame for the collapse of the expeditionary force of scouts to save the potato crops on the Eastern Shore on the shoulders of the shore farmers. He alleged that the farmers took "advantage of a purely patriotic move" and had shown an "utter lack of appreciation and tangible cooperation" with the scouts who had come to help them harvest their four-million barrel crop. Withdrawal of the scouts was ascribed to the fact that the truckers had forced them to remain idle without pay for a week and had not paid them enough to meet expenses.

Following a lovers' quarrel, Gus Shackelford, 25 years old, shot and fatally wounded Eva Carter, 17 years old, at the girl's home in Urbanna yesterday. Shackelford was captured while trying to escape.

Germans Shoot a Woman.

London, July 5.—A German courtmartial sentenced to death Mlle. Grandpez and her brother, both of Stavelot, Liege province, Belgium, and caused them to be shot within 24 hours, says an Exchange Telegraph dispatch from Amsterdam today.

The accused were tried at Liege on the charge of espionage. The proceedings were in camera.

THREE PINTS AND RAZOR

George Jones, Colored, Held for the Action of the Grand Jury for Violating Prohibition Law.

Among the prisoners at the bar of the Police Court this morning was George Jones, a young negro man, who had been arrested by Officer Kerns for violating the prohibition law. Jones had three pint bottles of whisky in his possession, one of which he attempted to secrete in a hole when the officer appeared. Upon being searched a razor was found upon his person. After hearing the evidence in the case, Justice Caton held the prisoner for the action of the Grand Jury.

Mary Beard appeared as a complainant against Theodore Gensmer, charging him with assault. Gensmer was not present, and an investigation of the private life of the complainant followed. It was stated by the police that the woman is often seen at late hours of the night, sometimes in Rosemont, with soldiers. She was sentenced to jail for 30 days.

Martha Myers, colored, was charged with being drunk and disorderly. She was fined $5.

Two white men, charged with being drunk, were fined $5 each.

William Morris, colored, was charged with entering the house of Ben Lucas and taking therefrom two pillows. The owner intercepted Morris and recovered the plunder. It is suspected that Morris is mentally weak, and he was ordered to be held until an examination can be held.

Thomas Halley, an incorrigible colored boy, was sent to the alms house where he will remain until the State Board of Charities and Correction act in his case.

A white man, charged with being drunk, forfeited his collateral by failing to appear.

THE "EXTRA" NUISANCE.

About twelve o'clock Tuesday night, when most Alexandrians were in bed, boys began to cry "extra!" The yells of the urchins had an effect similar to a midnight alarm of fire. It was difficult, at first, to understand what news they were announcing. Some exclaimed, "American transport attacked by German marines and thousands of soldiers drowned," and in parts of the Fourth ward these nocturnal news vendors cried out "President Wilson shot in the left lung!"

After most of the population had been awakened, it was natural that they desired to know what had actually taken place, and the contracted sheets had a ready sale. Purchasers glanced at the headlines with apprehension, supposing that a terrible disaster had followed the transportation by the United States of troops into the European war and they breathed easier when they saw that no American ship had been destroyed nor an American soldier injured. The boot was on the other foot—United States vessels had sent at least one German submersible to the bottom and driven away the others which formed the attacking flotilla.

We fail to see why everything contained in the extra could not have been kept for the regular morning papers. While the dispatches may not be classed as "Much ado about nothing," they were not of sufficient importance to necessitate the rude awakening of almost our entire population.

In this connection it may be stated that Alexandria is often convulsed by cries of boys announcing extra Washington papers, especially after dark. Sometimes this is done to announce the result of a baseball game or something equally as unimportant to the masses. The custom has long been regarded as a nuisance.

In this connection it may be stated that urchins, desiring to sell "extras," do not hesitate to forge headlines and they often cry out what they know is not in the paper. Besides it is an ordinary occurrence to hear these vendors cry out "extra" after dark, and upon being approached by prospective purchasers it is discovered that the youths are attempting dispose of left-over afternoon editions of Washington papers. They are attempting to obtain money under false pretenses, and could be handled by the authorities.

The wise man in the Book of Exclesiastes tells us there is a time for everything, and there is also a time when extra papers are in order, but none should be hawked after midnight except under the most extraordinary conditions. We are not, however, sitting in judgment upon the managers of Washington papers. It is their privilege to issue extra all night, if they desire to indulge in the pastime, but we do suggest that they concentrate their enterprises to the capital city.

We hope Secretary Daniels will in future keep his important disclosures underguard until long after midnight so they can appear in regular morning and afternoon papers.

MUCH TO BE THANKFULLY FOR

A spirit of devout thankfulness is felt by the American people over the Fourth of July announcement of the success of the transports in fighting their way across the ocean in the presence of the inveterate and malignant assault of the foe.

Fighting the enemy using his deadly weapon, the submersible, and handicapped by the pernicious activities of spies who had access to the plans of the department and had ways for getting the information across to Germany, the United States, nevertheless, has succeeded in landing all of its first army contingents in Europe without loss of a single life or the loss of an animal. Such a performance is something to cause those who had part in its to feel especial thankfulness. The success of the convoys in overcoming the submarine assault affords wide relief to the American people. It gives indication that the submarines have a wholesome respect for the torpedo-boats. Their speed and agility and batteries of rapid-firing guns especially for the searching out and destruction of the submersibles make them a deadly menace to the under-sea boats.

As the Baltimore American suggests, nothing could better disclose the disposition of the Germans to carry out their program of frightfulness than the manner in which they waylaid the transports and sought to slaughter all on board. Secretary Daniels says there is no doubt that the full program of sailing was conveyed to the enemies by spies in the very Navy Department itself and close enough to gather advance information.

The officials must be left to their own measures for ferreting out those responsible for the leak and when ferreted out they should be shot in summary fashion. The officials must be left to their own methods for preserving secrecy in the future. But secrecy must be had at all costs.

SPAIN PROTECTING HERSELF

Out of the darkness which now envelops Spain comes one illuminating announcement, says the Philadelphia Ledger. The King has signed a decree forbidding submarines of any belligerent power to navigate within Spanish waters, and ordering the internment until the end of the war of those who disregard this prohibition.

This means that the German U-boats will no longer be able to use Spanish ports as bases or to create such a blockade of them as American ports suffered for a time after "unlimited" submarine warfare had been declared. As in the case of the European neutrals generally, Germany has been preying on Spanish commerce almost as if a state of war existed; and not all the pro-Germanism of church and court has been able to repress the indignation of the commercial and industrial classes at the injury they are suffering. This is one reason, of course, for the threats of revolution and the disorders in cities like Bilbao and Barcelona. If the King, in spite of the opposition of those surrounding him, can do something to protect Spanish interest against German aggression, he may end the unrest and keep his throne.

NEW FIGURES FOR PANTHEON.

The Richmond Times-Dispatch observes that when the smoke and the tears of this conflict have been cleared away and the sun shines again on a world at peace, there will be new figures in the Pantheon of human liberty. Among them will be Kerensky, representative of labor in the provisional government of Russia. Frail, in the clutch of what probably is a mortal illness, he has the vision of the seer and the spirit of the martyr. Willingness to die for the freedom he helped to establish is noe a phrase with him, but a creed, held with unfaltering conviction. No wonder the Russian army, spurred by his example as well as by his eloquence, followed this modern Danton into the very jaws of death!

OAT BREAD.

(Baltimore American)

Here is a fact which should be impressed upon the attention of the propagamdists who are preaching food economics, and, likewise, upon the attention of frugal housewives the country over. Wheat for September delivery was quoted in Chicago around $1.78 the bushel, corn for September around $1.42 and oats for September around 52 cents the bushel. There is in prospect a yield of oats this year that will top the highest previous year record. Kansas has sent in a message of a prospective 70,000,000 bushel oat crop, which will be 41,000,000 bushels greater than the yield of last year and 16,000,000 bushels greater than the yield of the previous high-record year. It is practically certain that Minnesota, Nebraska and the Dakotas will also have record-breaking oat crops and that this will be a high record year by from 100,000,000 to 200,000,000 bushels excess in the yield of oats.

Can good bread be made from oats? The answer is affirmative with a big stress on the eyes. Oaten bread made upon much the same formula as wheaten bread is delightful to the taste and highly nutritious. Wheat bread is largely a habit. Wheat is not the one and only bread grain. Most Americans are acquainted with the delicacy and charm of oaten mush. The oaten loaf is also good, wholesome and pleasing to the palate. There can never be a bread famine so long as there is a big oat surplus in the storage bins.

DERNBERG'S PEACE IDEAS

Advances as Concluding Demand Restoration of All German Colonies.

Copenhagen, July 5.—Dr. Bernard Dernberg, who for a time directed German propaganda in the United States, and who left New York in May, 1915, gave his ideas on the necessary conditions of peace during an address at a convention of the radical party of Schlesweg-Holstein. Dr. Dernberg rejected the idea of the annexation of Belgium, though unopposed to the partition between Flemings and Walloons, and to the exaction of guarantees to prevent another power obtaining greater influence there than Germany.

Dr. Dernberg said the annexation of parts of France, like the Longwy and Briey ore fields, was not desired, although corrections of the frontier found necessary by the military authorities did not exclude concessions in Alsace-Lorraine, in Dr. Dernberg's mind, while the conditions to be demanded in the east depend on developments in Russia.

The former colonial secretary advanced as a concluding demand the restoration of all German colonies.

WILDLY CELEBRATED FOURTH

Great Crowds in Paris Honor to American Boys in Khaki.

Paris, July 5.—All France celebrated the Fourth of July. Paris turned out a crowd that no American city ever surpassed for size, enthusiasm and profusion of Stars and Stripes.

A battalion of the first American expeditionary force, about to leave for training behind the battle front, had its first official review in France and was the center of the celebration.

Everywhere the American flag was flying from public buildings, hotels and residences and from automobiles, cabs and carts; horses' bridles and lapels of pedestrians carried them.

CIVIL WAR IN CHINA.

Battle Raging Between Troops of Southern and Those of the Northern Provinces.

San Francisco July 5.—China is in the throes of civil war, and a battle was being fought yesterday between troops of the southern provinces, fighting for the preservation of the republic and the northern forces of the young Emperor, according to cable advices received here today by the Chinese Nationalists' League. The first clash, officials of the league, who claim the source of its information is unquestionable, say occurred Tuesday.

The advices state that President Li Yuan is safe in Peking and Vice-President Fung Kuck Jung is directing troop movements in Nanking.

According to the dispatches the soldiers of President Li in the Chinese Capital are steadily gaining ground.

Tokio, July 5.—Gen. Chang Hsun, says a dispatch from Peking, asked Baron Hayashi, the Japanese minister, on June 22 whether Japan would support a movement for the restoration of the monarchy in China. Baron Hayashi replied that Japan would adhere to its policy of non-interference.

Should the restoration appear to succeed it is believed here it may precipitate a decisive struggle between the northern and southern provinces. The opinion has been expressed here that, should serious disorder arise, Japan and the Allies might be forced to take protective action.

London, July 5.—The escape of President Li Yuan Hung of China from the palace at Peking on Monday evening is reported in an Exchange Telegraph dispatch from Tien-Tsin. The President is said to have gone to the legation of one of the Entente nations.

FOUR PILLAGERS SLAIN.

Amsterdam Police and Troops Fire Into Crowds.

Amsterdam, July 5.—Four youths were killed and nineteen persons injured when police and troops fired on a mob which was pillaging shops Tuesday night. The clash followed a parade of a large number of workmen through the streets contrary to police orders.

Previously a protest meeting at the Diamond bourse denounced the "brute forces of the wealthy classes" and the action of the police and military in connection with the scarcity of potatoes and their export to England. The meeting adopted a resolution in favor of a 24-hour general strike as a remedy.

Further rioting occurred Tuesday afternoon near Handelsxade. A crowd of women stormed a cold storage warehouse and carried off carcasses of pigs, which they distributed. Butcher shops also were plundered. Soldiers and police charged the crowds and cleared the streets.

The potato riots Tuesday night, in which mobs that attacked two markets were dispersed by the police after fighting in which many persons were wounded, resulted from an attempt of the government to ship potatoes to England.

All Amsterdam dock workers struck Tuesday morning. Builders' workmen and shipyard laborers struck in sympathy. The burgomaster has forbidden street demonstration, and open-air meetings. A deputation of the dock workers visited the burgomaster yesterday and demanded a better supply of foodstuff and the withdrawal of the military guard from the markets.

PRUSSIANS ASKS FAIR VOTE.

Conservatives Now Demanding Electoral Reforms.

Berlin, July 5.—The movement to obtain an equal electoral franchise in Prussia found champions in unpected quarters yesterday when leading Conservatives joined in a public declaration calling on the Government promptly to enact legislation in favor of election reform. Their call, which is an equivocal indorsement of the agitation carried on by the Social-Democrats for many years, bears the date of June 30, but was only made public today.

HELD AS GERMAN SPY

I. W. W. Organizer Charged With Instigating Coal Strikes to Lessen American War-Power.

Scranton, Pa., July 5.—With the arrest today of Joseph Graber, an organizer of the Industrial Workers of the World, accused of being a spy in the employ of the German Government, Federal authorities declared their investigation had satisfied them that recent strikes and agitations of the I. W. W. in the anthracite coal regions had been stirred up by German agents with the hope of lessening the power of the United States in the war by decreasing coal production. Graber, who was taken into custody by United States Marshal James S. Magee, was held without bail under the Alien Enemy act.

"Information in our hands," said John M. McCourt, Assistant United States Distric Attorney, who had had charge of the investigation, "proves the connection between the organizers and leaders of the Industrial Workers of the World movement here and the German Government. Graber, an organizer of the I. W. W., is a German agent.

"Our information proves, too, that German money has been poured into the district in an effort to cause strikes and thus lessen coal production."

NEWS OF THE DAY.

From twelve to fourteen German raiders yesterday morning dropped bombs on Harwich, a seaport town in Essex, England. The latest reports state that eight persons were killed and 32 injured. Only slight material damage was caused.

A German submarine bombarded Ponta Delgada, Azores, at dawn yesterday. A girl was killed and several other persons were injured.

With 2,400 militiamen on the ground, and Governor Frank O. Lowden in East St. Louis in practical charge of the situation, the city was again quiet yesterday. The known dead in the rioting was thirty negroes and four whites. The death list may reach seventy-five. It is estimated that at least 4,000 negroes have fled from the city.

Fifteen white men in automobiles fired about twenty shots early yesterday at a crowd of negroes gathered near the scene of the murder of Charles A. Maronde, 70, retired saloonkeeper of Chicago. No one was hit.

Militants staged another riot in front of the White House yesterday. While a holiday crowd hooted and jeered thirteen women were arrested and escorted, by way of police headquarters, to the house of detention, after refusing to put up $25 collateral each. Four men also were arrested for interfering with the militants.

Fewer fatalities and accidents marked the celebration yesterday of the Fourth of July than any Independence day in recent years. Reports from all parts of the country indicated only four persons had been killed.

Four persons were killed when an automobile, was run down by a gasoline engine on the Pennsylvania Railroad crossing at Irvins Mill, near Bradford, N. Y., late yesterday.

Germany is increasing the size of her dreadnought submarines. A report from Berlin says that the newest U-boats under construction are more than 400 feet long and carry engines capable of 18,000 horsepower. They have three times the number of torpedo tubes as the old-time submarines and can travel nearly thirty miles an hour on the surface of the water.

Eighteen thousand Teuton soldiers and 300 officers constitute General Brusiloffs captures Sunday and Monday, the two first days of his new big drive on Lemberg, capital of Galicia. To these official figures of prisoners were added yesterday those of the great booty in guns. Twenty-nine big cannon and thirty-three machine guns were taken on the two days, the Russia war office states.

The note which the Argentine government has sent to Germany on the sinking of the Argentine vessels Oriana and Toro, it is confirmed, demands indemnity, satisfaction and assurance that no more Argentine vessels will be attacked.

The second "black period" of unrestricted U-boat warfare appears to be over. Official figures issued by the British admiralty for the week ended last Sunday show a decided drop in the submarine havoc.

Four were killed and twenty injured in a collision at Manistee, Mich., of a crowded street car and excursion train on the Mainstee and Northwestern Railroad.

Teuton attacks on the west front failed again yesterday. The French hurled back the armies of the Crown Prince and captured the enemy line. All German assaults on the left of the Meuse were repulsed.

German submarines have opened a campaign against the Swedish merchant fleet along the Norwegian northern coast. Newspaper reports state that four vessels were attacked and sunk outside the blockade zone, the crews being compelled to take to lifeboats. Forty-three Norwegian vessels, aggregating 59,986 tons, were sunk by submarines or mines during that month, with the loss of 26 lives.

A skidding car brought death to Kon Hanson in the Pacific coast 150-mile championship race on the speedway in Tacoma, Wash., yesterday.

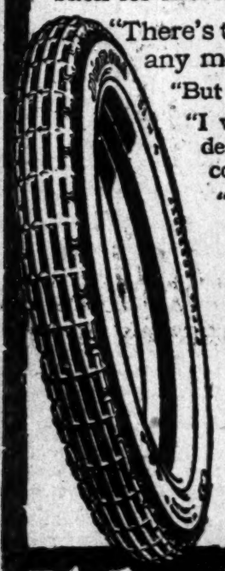
"A run for your money"

Robert Taylor, Jr.

"I have used up two hours time and a good disposition selling a man his first Diamond tire. He didn't know the tire very well and wasn't quite sure of me. But there is no money in that kind of business—unless they come back for more.



"There's the point. I can sell almost any make of tire once.

"But what's the use?

"I want to be your regular tire dealer now and for a long time to come.

"I have the tires, I have the prices, I haye the inclination, too."

Every Diamond Tire *must* deliver full value in service. If ever a Diamond Tire fails, a cheerful, willing adjustment will be promptly made.
